
THE BETWEEN
FLOOR 1/6
TIME 59:40
DON'T LET IT GUESS.
MAKE THE AI ASK YOU QUESTIONS.
The Flipped Interaction Pattern

METAXIS

THE REQUEST IS TOO VAGUE.

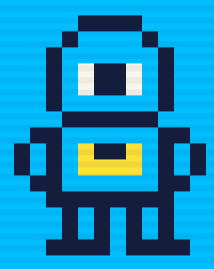

MOST PROMPTS FAIL FOR ONE REASON.

YOU

You know roughly what you want, but haven't named the details.

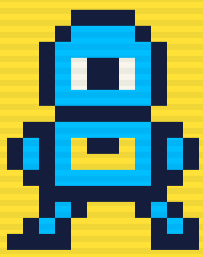

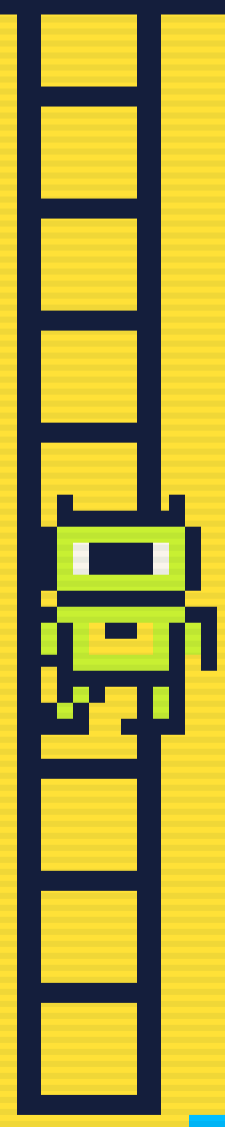

AI

The AI fills the gaps with assumptions.
The result misses.

Most prompts fail for one reason.

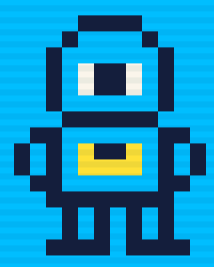

The pattern in the prompt

- [ ] Ask me questions to achieve X.
- [ ] Keep asking until Y.
- [ ] Ask one question at a time.

X is your goal. Y is when the AI knows enough.

USE

When context matters more than speed,
or you want personal output.

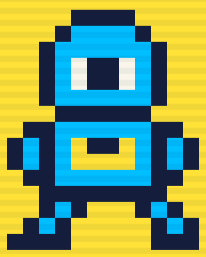

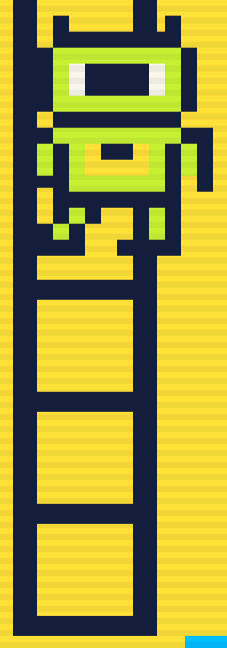

SKIP

For quick facts.

One question at a time keeps it focused.

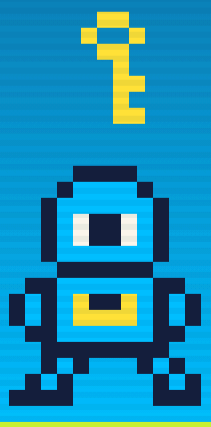

THE BETWEEN ROOF CLEAR

SPEED FOR PRECISION.

BUILT ON YOUR REAL SITUATION.
