

# CAPABLE IS NOT THE SAME AS ALLOWED.

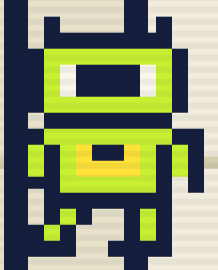

Being intelligent doesn't mean having permission.

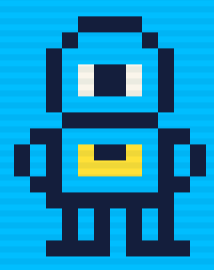

IT CAN WRITE CODE.
CAPABLE. NOT AUTHORIZED.

# AI

Reasons and proposes. Executes within defined boundaries.

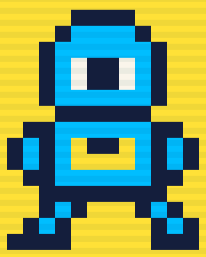

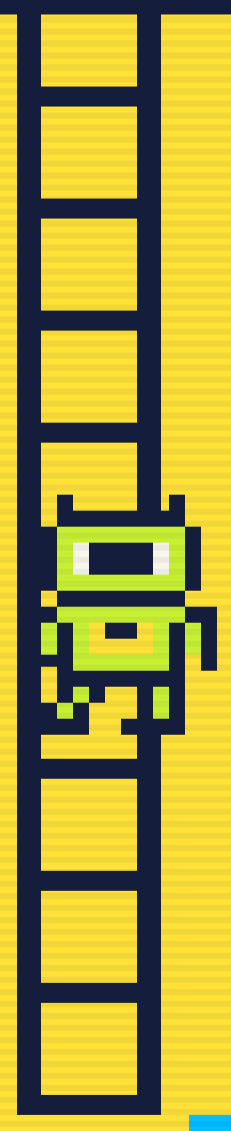

# SYSTEM

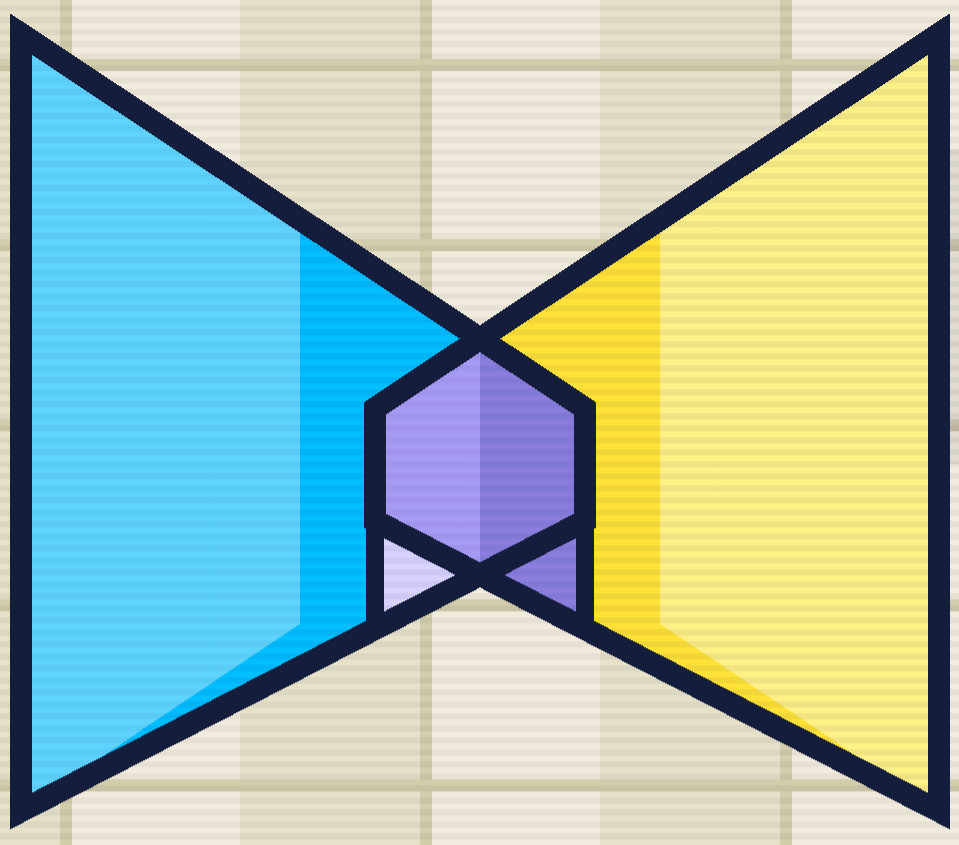

Decides the tools, the permitted actions, when a human approves.

---

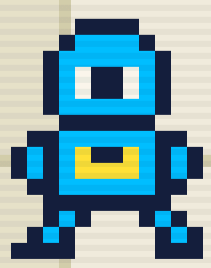

A core rule in the Metaxis Harness: intelligence is separate from authority.

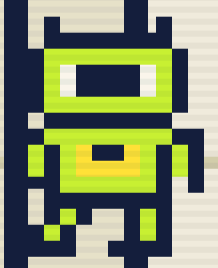

A SMARTER MODEL GETS NO EXTRA PERMISSIONS.

THE BETWEEN ROOF CLEAR

# THE GOAL IS BOUNDED, ACCOUNTABLE AUTONOMY.
